INSPIRING EARLY LEARNING SERIES:

ALL ABOUT *MOVERS* – IMPROVING CHILDREN’S PHYSICAL DEVELOPMENT

MOVERS

This workshop is a Joint Professional Development session aimed at teachers and practitioners working with children 2-6 years old.

‘MOVERS’ is the Movement Environment Rating Scales. This evidence-based and research-validated, high quality instrument measures the quality of the physical environment and adult interactions when supporting young children to develop their physical skills.

Schools and settings receive:

- ❖ In-workshop practice to develop use of the MOVERS scales
- ❖ Take it Back Scale Profile to evaluate the physical environment back on site
- ❖ Take it Back Tasks to share with the Whole Team to embed new practice
- ❖ MOVERS scale for 2-6 year olds
- ❖ Opportunity to share practice from other local schools and settings

Course content:

- Gain a deeper understanding of how the brain and body are linked inextricably
- Understand how to use movement language with children
- Providing irresistible physical learning environments for young children
- Use research to improve teacher and practitioner knowledge of physical development
- Knowing the importance and benefits of early movement, nutrition and sleep
- Linking MOVERS to other areas of childhood development
- Improving practice through self-evaluation
